

Sidekick Wireless Slate

Once you use it, you'll never want to teach without it!

Ink Labs' Sidekick Wireless Slate "untethers" you from the front of the room, and allows you to control your computer, your Smartboard, or your interactive flat panel from anywhere in the room.

Pen activated with superior response time and no lagging!

Completely Customizable to meet your teaching style. 8 programmable soft keys let you launch programs, assign keyboard shortcuts, or access anything on your computer without the need to close the program.

The smoothest writing surface of any slate on the market. 8192 levels of pressure sensitivity enables imitation of strokes input with various levels of pressure, realizing vivid rendering of lines in different shapes.
